Hi,

I'm available Wednesday afternoon except 2-3. The other times I am already booked.

**Subject:** RE: Biosolids Meeting Reschedule

Lauren, et al,

Greenway is available tomorrow morning 10 -12, Wednesday afternoon, Thursday afternoon and Friday morning. If RWQCB cannot make these times, we would still like to discuss the NPDES process and the EPA's oversight of the biosolids application program. Please let us know when and what number to call. Thanks, SS

**Subject:** RE: Biosolids Meeting Reschedule

Steve and Travis,

Elizabeth Sablad, who is acting for David Smith, said she would represent EPA from an NPDES permits perspective, and so we wanted to find out other people's availability for the rest of this week for a teleconference. We do want representation from the Regional Board at the teleconference. It looks like Elizabeth and I will both be available tomorrow between 10:00 am and 12:00, Wednesday afternoon, Thursday afternoon, and Friday morning.

Lauren

**Subject:** Re: Biosolids Meeting Reschedule

I'm happy to participate, but my schedule fills up fast. I can't keep it open indefinitely. Let's get it scheduled and locked down.

Mona,

This is an extremely important issue for the City to get closure on. We need to include all involved regulatory agencies in the process. If the RWQCB does not have jurisdiction over biosolids application on Parcel M and will not have an active role in the process then I would be glad to discuss the next steps with just the EPA. If the RWQCB is going to be involved we will need senior-level participation on the call. Please let me know how you wish to proceed. SS

Sorry everyone. My schedule got filled recently for this time. Perhaps I don't need to be at the meeting though. I don't think Charles can make it at this time either. I do think it's important to have Dave Smith there.

Water Board Representatives,

I apologize for the lack of communication in rescheduling this conference call and appreciate your cooperation with the poll sent out last week.

The time that seems to work for everyone that participated is Monday (Dec. 9) at 1:30 pm.

Unfortunately, I have not been able to get a response from David Smith of the EPA. Repeated efforts to contact David have failed, and I have not been able to get confirmation from Lauren as to whether or not David will be available for a Monday conference call.

As I understand from our last attempt, David will be a critical participant in the conversation and I will continue my attempts to get him involved. I will pass along any information to you all as it becomes available.

Sorry for the inconvenience and thank you for your patience.
